About company

Textile Standard Services (TSS) is a leading company, part of the UZGATE group of companies, which specializes in preparing textile companies to enter the European market. The company actively works to promote our clients' brands by creating unique marketing strategies and organizing various events to strengthen their position in the market. We believe in the importance of sustainable development and socially responsible business practices, so all our decisions are aimed at achieving environmental and social sustainability.

Our mission

Our mission is to promote the growth and development of the textile industry by helping enterprises achieve international standards and sustainable development. TSS places special emphasis on studying and meeting the requirements of international markets. We develop strategies and solutions that enable our clients to compete successfully in global markets, ensuring their products are of the highest level of quality and compliance.

Our services

Textile Standard Services offers a wide range of services for textile companies seeking success in international markets:

Implementation of international standards

We help companies implement international standards such as Oeko Tex, Sedex, BSCI, WRAP, Organic, GOTS, CE, BCI and others. This includes assessing current processes, developing and implementing new procedures, and preparing for certification audits.

Optimizing production and improving quality

Our specialists analyze production processes, identify bottlenecks and offer solutions to improve efficiency and product quality. We implement advanced technologies and best practices to achieve stable and high quality products.

Study and analysis of international markets

We conduct comprehensive international market research to help our clients understand global trends, consumer needs and the competitive landscape. This includes analyzing data, preparing reports and recommendations for strategic planning.

Our services

Textile Standard Services offers a wide range of services for textile companies seeking success in international markets:

Branding and corporate identity

We offer branding and corporate identity development services, including the creation of logos, websites, company profiles and other marketing materials. Our solutions help companies stand out in the market and strengthen their reputation.

Comprehensive preparation for European markets and international exhibitions

We provide a full range of services to prepare for entering the European market, including planning and organizing participation in international exhibitions. This includes the development of marketing strategies, preparation of presentations and stands, as well as organizational support at all stages.

Our partners

Our investment projects

Trading house in Germany "Centrastex"

Textile Standard Services is proud of its trading house "Centrastex", located in the heart of Germany. This trading house serves as an important link between European buyers and our high-quality textile products. We provide prompt deliveries and customer support, which allows us to strengthen our position in the international market.

Showroom of home textiles "Langheinrich" in Tashkent City

In collaboration with our German partner Langheinrich, we opened a home textile showroom "Langheinrich" in the prestigious area of Tashkent City. This showroom presents exclusive collections of home textiles that meet the highest European standards. Visitors can personally appreciate the quality and exquisite design of our products.

Successful projects

Advanced training for Textile Enterprises in cooperation with WRAP

Textile Standard Services, together with WRAP (Worldwide Responsible Accredited Production), offers specialized training programs for textile companies. Our courses cover all aspects of responsible production and quality management, including compliance with labor and environmental standards. The goal of the program is to help enterprises meet international requirements and improve their competitiveness in the global market.

Certification by International Standards

Every year, more than 100 enterprises are certified by international standards with the support of Textile Standard Services. We provide comprehensive consultancy services covering standards such as OEKO-TEX, Sedex, BSCI, GOTS, Organic EU, WRAP and others. Our experts help businesses successfully complete all stages of certification, from preparing documentation to audits and inspections. This allows our clients to confidently enter international markets and confirm the high quality of their products.

Consultations on Entering Foreign Markets under the USAID TPSP Program

Textile Standard Services has been included in the list of consultants for entering foreign markets under the USAID TPSP (Trade and Private Sector Program) program. We provide support to businesses seeking to expand into international markets, including strategic planning, market research, partner searches and more. Our goal is to help Uzbek enterprises integrate into global supply chains and compete successfully at the global level.

Training for Organic Cotton Clusters in Turkey in collaboration with Control Union

As part of our organic cotton development project, Textile Standard Services organized training for textile clusters in Turkey. These trainings were aimed at increasing the level of knowledge and skills in the field of organic agriculture, sustainable production and certification of organic textiles. Participants receive practical knowledge and advice from leading experts, which allows them to improve product quality and meet international standards.

Project with GIZ to develop dual education

Our representative office in Barcelona, together with our partner ACIR Southern Europe, expands our capabilities in the European market. We strive to be closer to our customers and partners, providing them with high-quality services and products that meet the most stringent standards.

Search for Potential Buyers

Textile Standard Services actively seeks out potential buyers for its clients. We conduct detailed market research, organize meetings and negotiations with potential partners, and participate in international exhibitions and conferences. Our goal is to ensure stable demand for our clients' products, help increase sales volumes and strengthen their positions in global markets.

Benefits of working with TSS

We strive to fully satisfy the needs of our clients, providing reliable and high-quality services for successful entry into international markets.
